LEARNING FORMAT: CLASSROOM

The need to innovate has always been important. As companies navigate through the new normal, it's one of the top business drivers and mandates Employers Group hears from our clients. The pressure to find innovative solutions that result in competitive differentiation is tremendous. Leaders have to push their thinking and approach to meet these new requirements.

We believe leaders do not have to be highly creative to drive a culture of innovation. In this course, we provide the tools and techniques leaders need to support innovation. By gaining experience with these techniques in an engaging classroom setting, leaders will be equipped to model ideal conditions for innovation -- and be a keeper of the culture that inspires and rewards their teams.
