LEARNING FORMAT: CLASSROOM

Organizations are looking for leaders who can implement strategy from the middle. They need to identify execution priorities and manage their time to ensure execution and sustainability. Leaders learn actions they can take to engage themselves and their teams in executing priorities and how to overcome the challenges that interfere with effective strategy realization.

DO YOU FACE ANY OF THESE ISSUES?
- Are leaders unsure how to produce results while still engaging their subordinate leaders and teams?
- Are leaders unable to translate high-level strategies into specific actions for themselves and their teams in a sustainable way?
- Do leaders struggle to focus their time and energy on the right activities, at the right times, to drive team performance?
- Are leaders challenged to create the lead measures (or progress indicators) in addition to managing the lag (or outcome) measures.
